

Graduate Council

Mineral Engineering Catalog changes

The following is a change in a statement in the catalog under Mineral engineering Graduate program (p 196). Currently it reads:

“Applicants without an engineering degree may apply for the graduate program in Mineral Engineering. However, the student will be required to take ES 201, ES 302, and ME 420. Any other deficiencies may have to be covered as required the advisory committee.”

The following is the new statement:

Applicants without an engineering degree may apply for the graduate program in Mineral Engineering. However, the student will be required to take ~~ES 201, ES 302, and ME 420.~~ Any ~~other~~ all deficiencies that may have to be covered as required by the advisory committee.
