

Department of Mathematics

Proposed Catalog Changes

November 16, 2015

Bachelor of Science in Mathematics

Change:

1. the phrase

Minimum credit hours required— 130

to

Minimum credit hours required— 120

2. and the sentence

Minimum of 130 credit hours coursework: Electives to complete the minimum of 130 credit hours.

to

Minimum of 120 credit hours coursework: Electives to complete the minimum of 120 credit hours.

Justification: This change does not affect neither any of the General Education Core Curriculum nor the Mathematics Major requirements. It only affects the fill electives used to bring the minimum to 130 credit hours. In most cases the number of credit hours to satisfy all the requirements is close to 130 hours.
