

## Mineral Engineering Catalog Changes

### Changes in Pre-requisites

#### **ME 521, Advanced Minerals Exploration**

Current Prerequisite: *ME 360 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 522, Advanced Minerals Exploration Field mapping**

Current Prerequisite: *ME 360 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 523, Ore Petrography**

Current Prerequisite: *ERTH 203 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 531, Advanced foundation Design and Analysis**

Current Prerequisite: *ME 420 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 535, Stability of Rock Slopes**

Current Prerequisite: *ME 420 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 537, Design and Construction of Underground Openings**

Current Prerequisite: *ME 420 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 541, Ground Improvement**

Current Prerequisite: *ME 420 or equivalent soil mechanics*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 545, Vibration Analysis and Control**

Current Prerequisite: *ME 434 or consent of instructor*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 563, Field Studies in Hydrothermal Alteration**

Current Prerequisite: *ERTH 211, 318 or 319 or equivalent, ME 360 or ERTH 480*

New Prerequisite: *Graduate standing or consent of instructor*

#### **ME 564, Economic Geology Field Camp,**

Current Prerequisite: *ERTH 353, ME 360 or equivalent*

New Prerequisite: *Graduate standing or consent of instructor*
