Department: Physics

Program: PhD in Physics with Dissertation in Astrophysics

NEW MEXICO TECH
CENTER FOR GRADUATE STUDIES

Program Admission Requirements

The Center for Graduate Studies is implementing a new application system for incoming graduate students. To properly configure this new system, we need to have a documented record of the program requirements for each program. Due to the change in general requirements last spring, we must document which programs are requiring Calculus, Chemistry, and Physics. Below is a list of general requirements and, if applicable, a list of requirements specific to your program taken from NMT's catalog. Please select the general requirements for your program, and review the list of specific requirements. If any corrections need to be made, please use the space provided to specify the necessary changes. The CGS will take any changes to the graduate council and faculty senate for approval.

Please select the general prerequisites required for your program:

☐ General Physics I ☐ Lab ☐ Recitation

☐ General Physics II ☐ Lab ☐ Recitation

☐ General Chemistry I ☐ Lab ☐ Recitation

☐ General Chemistry II ☐ Lab ☐ Recitation

☐ Calculus I ☐ Lab _____

☐ Calculus II _____

Requirements from catalog are as follows: Please use this space to note any corrections

None

Department Chair Signature: _____   Date: _____

Richard Sonnenfeld

Department: Physics

Program: PhD in Physics with Dissertation in Atmospheric Physics
