Physics 3034 – Spring 2024: Due April 29.

Homework 08
SPN 8-01 - "Radiation resistance" Do Griffith's 11.3.
SPN 8-02 - Energy loss by radiation in a capacitor Do Griffith's 11.8.
SPN 8-03 – Energy loss by radiation of a dropped charge Do Griffith's 11.12. This can be done entirely with formula 11.70. The problem reads: "An electron is released from rest and falls under the influence of gravity. In the first centimeter, what fraction of the potential energy lost is radiated away?"
SPN 8-04 - Atoms can't exist! Do Griffith's 11.14 to see why! First few words are: "In Bohr's theory of hydrogen"
